

Facial Recognition Technology Request

In response to your open records request, I have found no documentation that the Marietta Police Department (MPD) has at any time sent out a solicitation or Request for Proposal (RFP) for any software relating to the use of facial recognition technology. As a result, the MPD has not had an acquisition for, and is not currently using any facial recognition technology at this time.

Please let me know if you need anything in the future. I am closing this Open Records Request at this time.
